

PROFESSIONAL DISABILITY SUPPORT - CANBERRA

Life should feel like **yours.**

Skilled support, genuine relationships and more room for everyday possibility.

OUR PROMISE

We care. You smile.

NDIS Provider 4050090860

Support designed around a life.

A person is never a diagnosis, and a good outcome is never just a completed task. We begin by understanding the person, the routines they value and the future they want to shape.

Listen first

01

We learn how you communicate, what matters and what good support should feel like.

Match thoughtfully

02

We consider needs, preferences, personality and the professional skills required.

Keep shaping

03

Support changes through feedback, review and the goals you choose next.

WHAT YOU CAN EXPECT

- Choice and control
- Professional relationships
- Clear communication
- Support linked to your goals

A home with room to be yourself.

We support daily life in ways that protect dignity, build confidence and respect the routines that make a place feel like home.

Support is planned with each person and may depend on assessment, availability, service agreements and NDIS funding decisions.

01

SIL

Supported Independent Living focused on everyday routines, skills and the assistance agreed for the home.

02

ILO

Individualised Living Options explored around relationships, preferences and the way a person wants to live.

03

Daily life

Personal activities, household tasks and practical support shaped around the person's plan and goals.

04

STA

Short Term Accommodation and respite arrangements discussed around purpose, fit and availability.

05

MTA

Medium Term Accommodation support considered where an eligible person needs an appropriate interim option.

SUPPORT COORDINATION

Turn a plan into possibility.

Clear guidance can make services easier to understand, organise and use with confidence.

CLARITY - CONNECTION - CONFIDENCE

WHAT COORDINATION CAN INCLUDE

01 Understand

Make the plan, budgets and responsibilities easier to navigate.

02 Connect

Identify suitable providers, community options and mainstream services.

03 Build

Strengthen confidence and skills to manage supports and make informed choices.

04 Review

Track what is working, prepare for reviews and respond when circumstances change.

The right support coordination approach depends on the participant's goals, plan and funded level of support.

Come as you are. Catch up. Feel connected.

Regular catch-ups create space for clients to know other clients, enjoy good company and meet the wider Maxi team.

WEEKLY

Saturday catch-up

Complimentary food, drinks and relaxed conversation.
Optional free activities may be offered on selected Saturdays.

WEEKLY

Coffee catch-up

One weekday each week, with a smaller and easy-going opportunity to talk, connect and maintain familiar relationships.

CONNECTION COMES FIRST

Activities are an invitation, not the reason someone belongs. Attendance is voluntary. Food, coffee, non-alcoholic drinks and advertised Fun Club activities are provided by Maxi Care Plus and are not charged to a participant's NDIS plan.

Individual support or transport required to attend is discussed separately and agreed transparently beforehand. Registration helps us plan access, dietary needs, staffing and activities.

COMING SOON

Home Aged Care, developed with care.

Growing older should not mean giving up the routines, relationships and sense of home that make life familiar.

THE DIRECTION

Maxi Care Plus is developing a future Home Aged Care offering for the new Support at Home environment and strengthened Aged Care Quality Standards.

- Care shaped around routines and preferences
- Cultural understanding and family connection
- Continuity, dignity and supported independence
- Rights, safety, feedback and quality built in

IMPORTANT

This future service is not currently available. It remains subject to required registration, approvals and operational readiness. Registering interest does not create a service agreement or guarantee availability.

Start with a conversation. Build from trust.

01 Say hello

Call, enquire or send a referral. Tell us what matters without pressure.

02 Meet in person

We learn about routines, goals, communication and the whole support picture.

03 Meet your match

We introduce professional support suited to needs, preferences and availability.

04 Keep shaping it

Support evolves through feedback, review and the goals the person chooses next.
